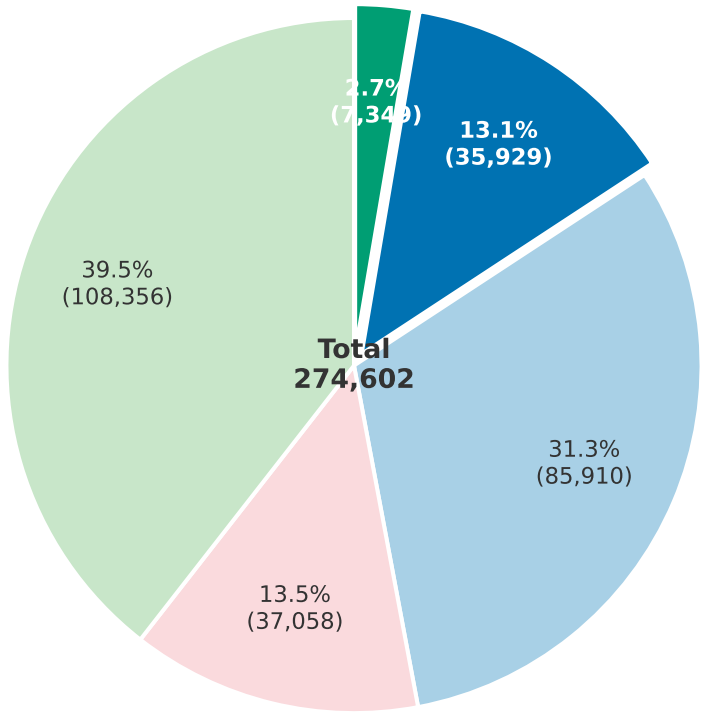
Base Pre-training Dataset: Structure Sources
(n = 274,602 total | 43,278 experimentally derived | 231,324 computational)



Source (brighter = experimentally derived)

- COD (experimental crystal structures) (7,349)
- Materials Project (curated, ICSD-linked) (35,929)
- Materials Project Full (broader computational set) (85,910)
- OQMD (DFT on experimental prototypes) (37,058)
- Alexandria (high-throughput computational) (108,356)
